

Back to School...Back to Congress

BACK TO ACTION on U.S. Competitiveness!

Just as students have "Back to School" checklists for academic success, Congress, too, has a checklist for keeping our country competitive. **Business Roundtable urges Congress to pass legislation this year that...**

- Strengthens K-12 math and science education programs.
- Expands undergraduate and graduate science and engineering programs.
- Doubles funding for basic research in the physical sciences over ten years.
- Fixes visa and green card programs for highly educated, foreign-born professionals.
- Extends a strengthened R&D tax credit permanently.

Congress: Check All the Boxes to Ensure U.S. Science and Technology Leadership!

Business Roundtable
www.businessroundtable.org

A founding member of and leading force behind Tapping America's Potential (TAP), the business community's campaign to double the number of U.S. science, technology, engineering and mathematics graduates with bachelor's degrees by 2015.
